

# What was the sum of monthly payments and number of payments for the top 5 customers in 2007?

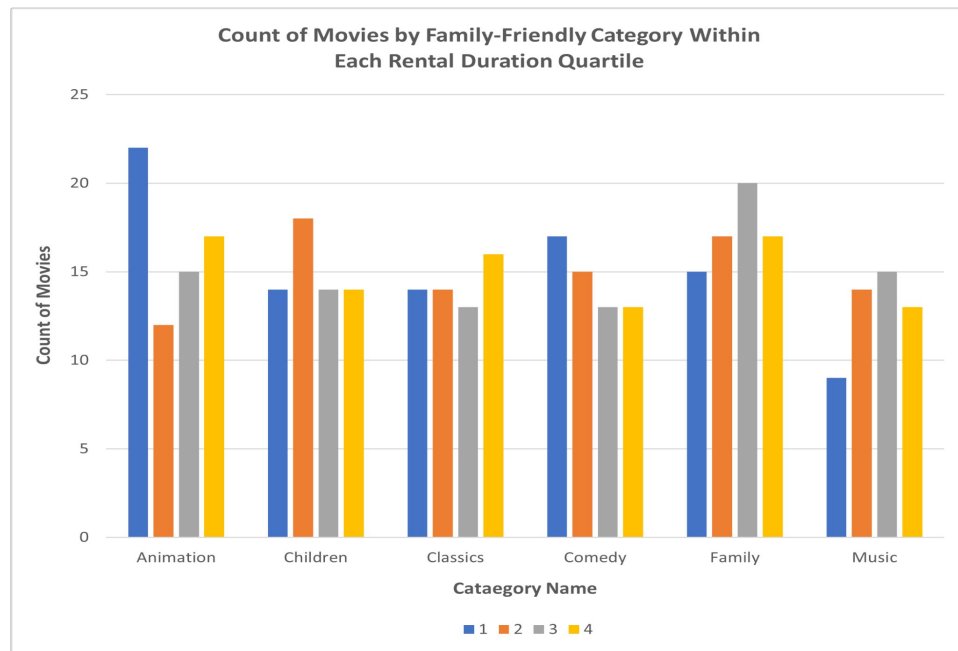

We can see that between the months of February through May, Eleanor Hunt had the highest sum of monthly payments as well as the highest number of payments during that time period.

# What was the total monthly rental count for each store in 2005?

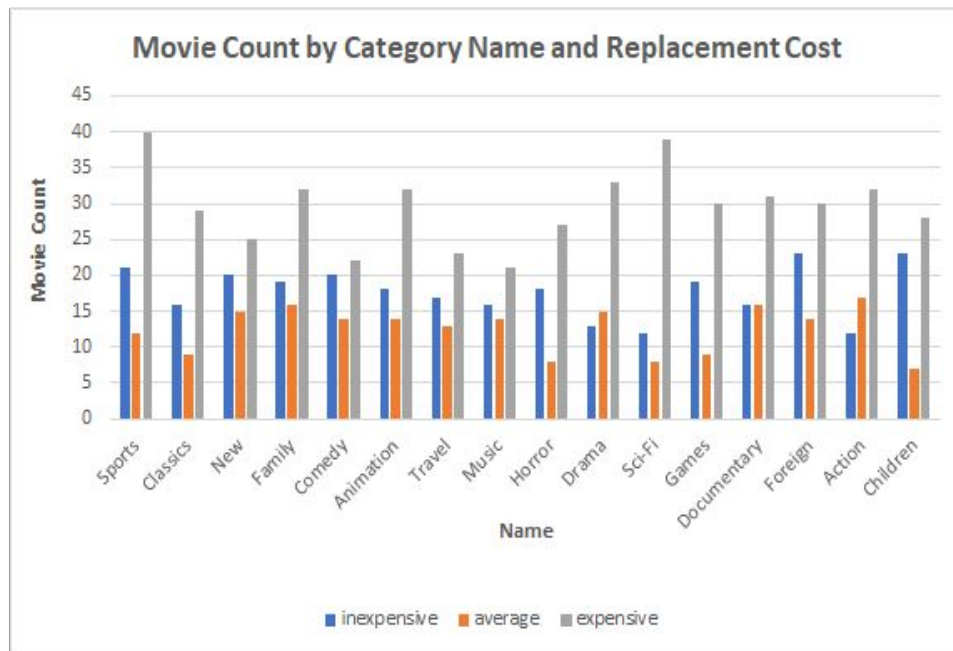

As we can see, both stores had almost the same number of monthly rentals each month, with the highest number of rentals during the month of July.

# What is the count of movies by family-friendly category within each rental duration quartile?

We can see that the animation category has the highest count of movies and the music category has the lowest count of movies in the rental duration 1st quartile.

# Which movie categories have the highest movie replacement costs?

As we can see, sports, family, animation, drama, sci-fi, games, documentary, foreign and action all have 30 or more movies in the expensive replacement cost bucket, with sports having the highest number at 40 movies.
